To drive growth in both FFO and NAV, we follow four operational strategies for the existing portfolio

	Reputation & customer satisfaction	n
Property management strategy	Optimise EBITDA by increasing rent, reducing vacancy, reducing operating cost, adequate maintenance	5 Acquisition
2 Financing strategy	 Maintain adequate liquidity at any time while optimising financing costs based on target maturity profile and rating 	strategy Increase FFO/share
3 Portfolio management strategy	 Optimise portfolio by investment program, sales and tactical acquisitions 	 without dilution of NAV/share Increase critical mass to further support operational strategies
Extension strategy	 Increase customer satisfaction/value by offering value-add services

### Implementation of a best-in-class financing structure

Financing strategy

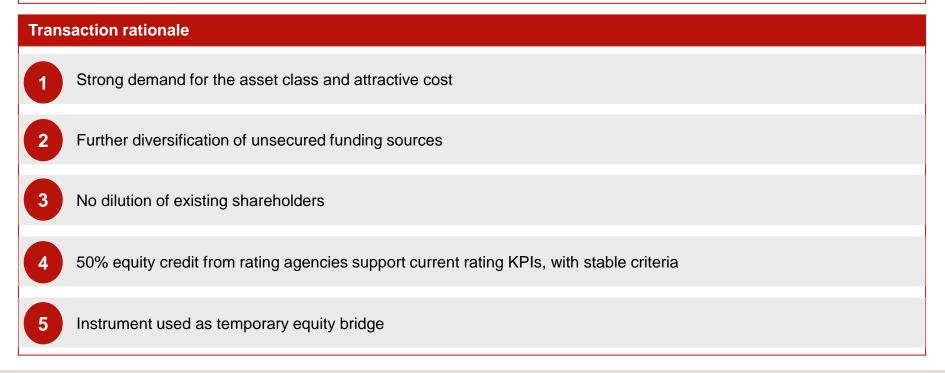

Financing strategy

#### Comments

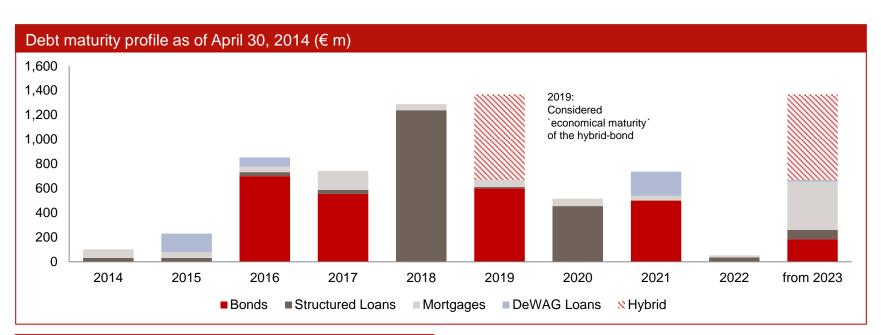

- In April 2014, Deutsche Annington issued a € 700m hybrid bond a premier to European residential real estate companies
- The reaction of the issuance was overwhelming and the demand very strong volume as well as coupon have exceeded our expectations
- Another proven instrument enlarging our financing toolkit evidencing our innovative financing strategy

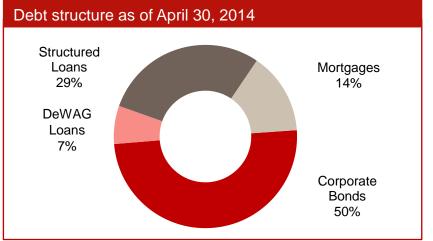

## Long-term and well balanced maturity profile

Financing strategy

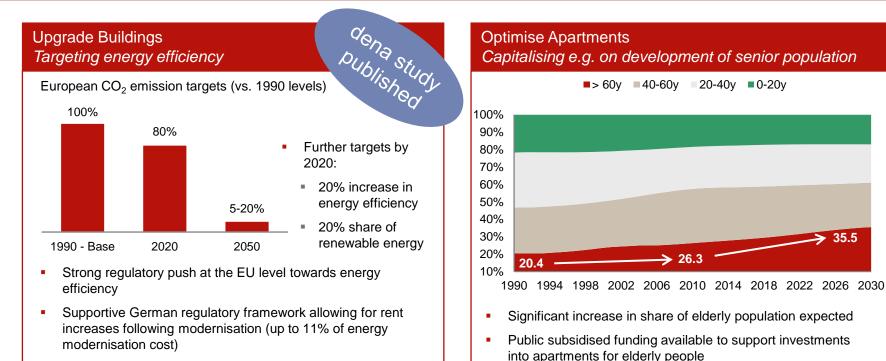

- No major refinancing before 2016
- Structured Loan (WOGE V) of EUR 248m due 2015 has been prepaid in April 2014
- Hybrid-bond is due 2074 (after 2023), but will loose the equity credit in 2019 (`economical maturity')
- DeWAG loans currently under review for best redemption strategy, cash available at DAIG balance sheet.

## Modernization program 2014 fully running

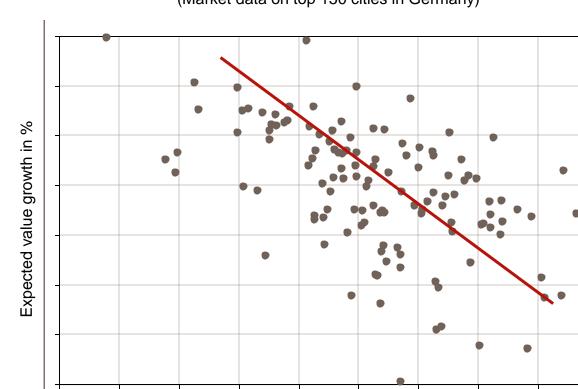

DEUTSCHE

- Two investment modules in 2014 delivering ~7% unlevered yield:
  - "Upgrade buildings" energetic building modernization (€115m)
  - "Optimize apartments" vacant flat modernization for elderly living (€35m)
- Ramp-up of internal resources to realize investment volume of €150m completed
- Subcontractor capacities secured
- Low interest rates for KfW-loans secured

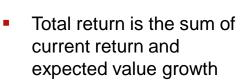

Portfolio management strategy

Total Returns 2009-2012 (Market data on top 150 cities in Germany)

Current return in %

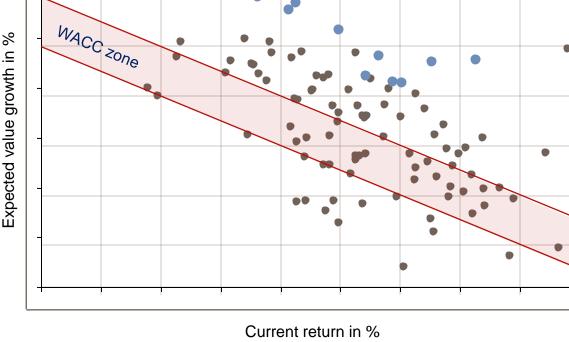

- Imbalanced market structure provides opportunities
- Growth is most crucial component
- But analyses of history shows – rent forecasts by external data providers are not reliable

## Deutsche Annington's portfolio management approach (Deutsche Annington's analyses of Germany)

- We developed a framework to evaluate the housing market
- Growth is derived from basic demographic data and own estimates
- We will invest and acquire assets with above average returns and sell assets with low return
- We identified 10 cities with a priority for acquisitions

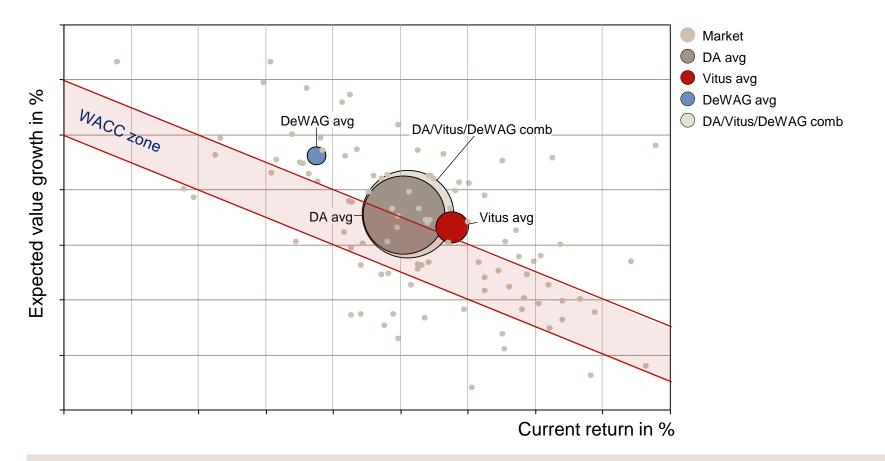

Portfolio management strategy

Portfolio management strategy

## Vitus and DeWAG perfectly enhance our portfolio

The new portfolios of Vitus and DeWAG perfectly fit to our portfolio management strategy and shift our position into the right direction

## Extension strategy offers significant advantages to our clients and improves our cost base

Extension strategy

#### Key objectives of DA extension strategy:

Widening the value chain

Increase in customer satisfaction resulting in higher customer loyalty

Traditional Business

DTAG

- Additional contribution and growth from extensions of the value chain
- Improvement of efficiency and quality of process chains which are relevant to DA core business

#### Strategic advantages of the TGS ioint venture:

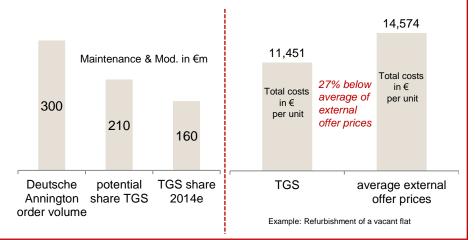

- Higher quality (build-up of know how, efficient & closely coordinated processes)
- High reliability (direct access to craftsmen capacities)
- Cost reduction (managing total costs of process)
- Nationwide scalable operating platform

#### **Development of the multimedia** partnership with Deutsche Telekom (DTAG):

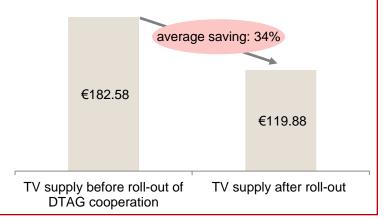

- DTAG will equip 145,000 of Deutsche Annington residential units with modern fibre-optic technology.
- > 58,000 units will be connected end Q1 2014
- Partnership opens the ground for further cross-selling opportunities

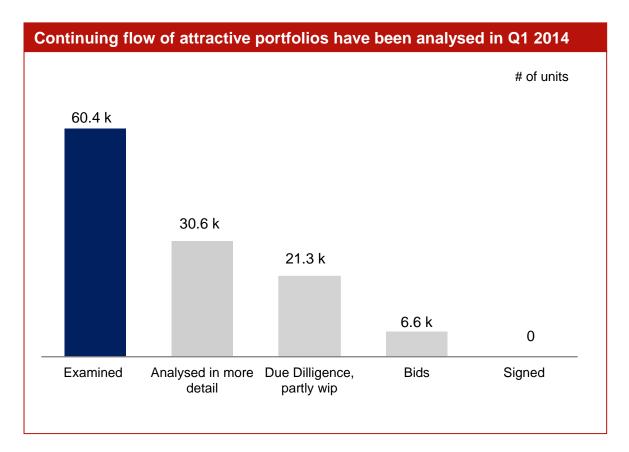

#### Partnership offers huge cost savings for our clients

TV supply: development of annual average costs per household

# Higher flexibility for acquisitions and integration of portfolios, continuing strong deal flow

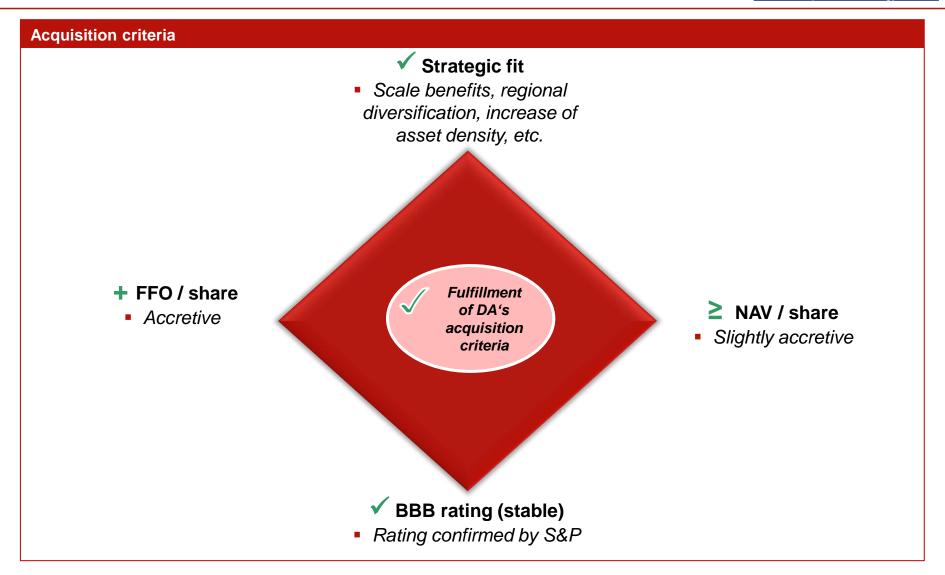

- There is a continuing flow of attractive portfolios
- As the largest residential real estate company in Germany operating throughout the country and due to increased financial flexibility, we have strengthened our market position significantly and are able to bid for every attractive portfolio
- However we continue to have a disciplined approach. The preconditions for any purchase are:
  - Fit to portfolio
  - FFO/share accretion
  - NAV/share at least neutral
  - Maintaining our BBB rating

## Vitus and DeWAG fulfill all of Deutsche Annington's acquisition criteria

## Important milestones of funding already achieved

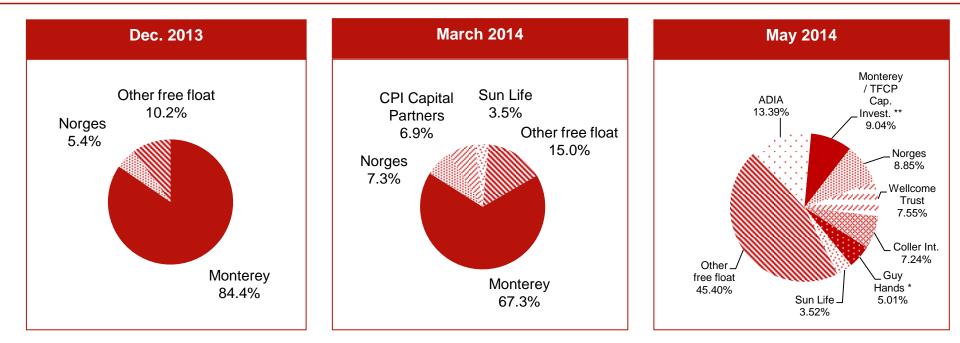

#### **Comments on financing**

- € 400m Debt remaining in place mainly subsidised loans or low-interest bearing debt.
- 2 11.8m shares in kind will be issued to Vitus shareholders at closing. Value consideration is DAIGs NAV at YE 2013 – € 21.33
- Equity markets approached to raise primary capital under Deutsche Annington's authorised share capital at March 2013. 16m shares issued at € 19.00.
- Issuance of hybrid bond, allowing for 50% equity credit, thereby strengthening the combined capital ratios issued at April 2014. For details see appendix.
- Cash / bond financing: Residual amount to be raised from cash or via bond market in line with Deutsche Annington's strategy of evenly spreading its maturity profile and/or asset disposals

## Significant increase of free float

- On March 5th, 2014, DAIG issued 16.0m new shares via an accelerated book building ("ABB") at EUR19.00 per share, a discount of 4.6% to prior days closing
- New total number of Deutsche Annington shares outstanding reached 240.2m
- At the same time, Monterey and CPI Capital Partners split off their shareholder agreement. CPI received 27.6m shares and offered 11.0m of these shares to be placed as secondary
- On May 19th, 2014 Monterey handed over their shares in DAIG to their fund investors. 18.7m shares of investors
  preferring no shares as well as 11.3m of CPI shares were placed as secondary via an ABB at EUR 19,50 per share
- Hence, DAIGs free float and share turnover have increased significantly

^{*} In addition, the voting right of Monterey Holdings I S.á r.I. and TFCP Capital Investments Limited are attributed to Mr. Hands

^{**} Monterey Holdings I S.á r.l. is indirectly controlled by TFCP Capital Holdings Limited. Monterey Holdings I S.á r.l. directly holds 8.76% and TFCP Capital Holdings Limited directly hold 0.28% of the voting rights in Deutsche Annington Immobilien SE.

#### Comments

- All FFOs with significant positive development
- Main driver is a significantly lower interest expense from the new financing strategy being fully in place now
- Adjusted EBITDA slightly lower due to reduced sales volume, Adjusted EBITDA Rental flat despite reduced portfolio

### NAV rising due to profitable growth and capital increase

#### Comments

- Main impact of NAV growth derives from capital increase on March 5th, 2014
- Total comprehensive income includes Q1 valuation impact
- Other changes include the costs for the capital increase

Note: Rounding errors may occur

#### Evolution of Adjusted EBITDA (€m)

#### Adjusted EBITDA Rental flat despite reduced portfolio as slight top-line decrease is compensated by operating cost reductions

- Adjusted EBITDA Rental per unit improved by 3.8% to € 626 per unit
- Adjusted EBITDA Sales decreased due to reduced sales volumes, while step-ups improved significantly especially in the privatisation segment
- Non-recurring items reflect costs related to our recent acquisition activities

#### Comments

- Nearly stable rental income despite sales-related reduction of portfolio size from 180k to 174k
- Offset by higher average residential in place rent per square meter per month (5.44) and lower vacancy rate (3.7%)
- Decrease due to reduced sales volumes, while step-ups improved significantly especially in the privatisation segment

 Increasing contribution of internal craftsmen organisation TGS to maintenance and modernisation work

 Ramp-up of personnel from 2,516 to 3,073 employees leads to increased personnel expenses which primarily result from insourcing of craftsmen

#### **Comments**

 Increase mainly driven by acquisition costs shown as non-recurring items in the management accounts

- Lower prepayment penalties and commitment fees due to successful restructuring of financial debt positions in previous year
- Lower net debt and reduced FFO interest expense as result of improved financing structure

 Driven by valuation uplift of investment properties in the previous year

**DEUTSCHE** 

- Privatisation volume on similar level as previous year
- Fair value step-up increased due to good market environment

- Non-core disposals stepped up significantly, driven by sale of a package of 2,100 units in Q4
- Disposals around fair value as planned
- Higher step-up in 2012 mainly due to sale of large commercial units with a one-off character
